Open Source, web-based Performance Management for the Public Sector

Excelsis PMF 4.8 Open Source Seminar

Delivering performance across Public bodies

09 Nov – London Fire Brigade HQ

Organisations considering Excelsis PMF4.8 are invited to learn more about this Open Source project.

Aim: To help you understand the success factors of others in implementing a performance management system in a Department, Organisation or as part of a Multi-Agency initiative.

Benefit: By attending you will see the advantages and understand the lessons learned from the development and implementation of the Excelsis PMF system by the Public Sector in the UK.

Network: You will be sharing thoughts and experience with other performance professionals.
