

360 Performance Management Framework

360 Performance Management Framework or 360 PMF is easy to use Performance software on the web. It provides a platform and toolset to enable improvements in performance across key functions in Organisations.

360 PMF can help you manage performance improvement

360 PMF is made up of modules that support planning & tracking of performance across the organisation structure, multiple agency working and locality specific planning.

Modules include:

- ✓ Strategic Planning
- ✓ Performance Indicators
- ✓ Risk Management
- ✓ Performance Appraisals
- ✓ Project Office
- ✓ Reports

Value For Money

360 Systems knowledgeable performance consultants and application developers make 360 PMF ideal for organisations looking to improve their performance management arrangements.

Our team is in the UK providing the expert support to clients locally without having to break the bank.

Software as a Service
Performance Management

"...and many thanks to you and all at 360, particularly your star, Neil, for all your support throughout the year. Looking forward to working with you next year."

360 Performance Management Framework

Performance Experts

The software is designed by Performance Experts for use in the Public Sector to meet the demands of organisations wanting to improve Performance across the board.

Customers using 360 PMF are in

- ✓ Local Government
- ✓ Emergency Services
- ✓ Social Housing
- ✓ Schools
- ✓ Agencies

Trial

Organisations can assess 360 PMF in a mini trial project. The trial enables Chief Executive and Performance Teams to understand how the platform would solve the 1 or 2 most pressing issues and support the performance culture. Over a 2 week period we

- ✓ Set up and host an instance of the system for you
- ✓ Plan the inputs and outputs for the trial
- ✓ Tackle your specific issues that need to be addressed
- ✓ Load sample plan, project, indicator and risk data
- ✓ Configure key reports and dashboard
- ✓ Provide trial support to your project team
- ✓ Present the results back to the decision making body

Benefits

- Align business plans with strategic imperative
- Track progress of actions
